OBJECTIVE

Junior Fullstack Web Developer (React / Node.js / React Native)

EDUCATION

Bachelor of Technology - BTech, Information Technology, Politechnika Radomska im. Kazimierza Pułaskiego
Expected 2026
Relevant Coursework: Web Development with JavaScript, React.js Fundamentals, Version Control with Git.

SKILLS

Frontend: HTML5, CSS3 (Tailwind), JavaScript (ES6+), TypeScript, React, Next.js, React Native (Expo), Redux Toolkit, React Router, React Hook Form, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT Auth, Middleware, Error Handling

Databases: PostgreSQL, MongoDB (Mongoose), Prisma, Supabase, SQLite

DevOps / Cloud: Docker, Railway, Vercel, GitHub Actions (CI/CD)

Security: JWT, bcrypt, CORS, Rate Limiting, Role-based Access Control

Tools: Git, GitHub, Jira, Postman, Thunder Client, Nodemon, ESLint, NX, Jest

Familiar With: Angular, Spring Boot

EXPERIENCE

Freelance Web Developer   Oct 2024 – Apr 2025
Self-Employed

Independently acquired clients via Telegram and delivered small-scale projects to build real-world experience. Worked on various real-world projects including a Telegram raffle system, a bulk messaging bot, and responsive web apps for local businesses. Used technologies such as React, Next.js, Express.js, MongoDB, Telegram API, and Discord.js. Handled full development lifecycle: requirements gathering, development, deployment, and support. Learned to manage deadlines effectively, solve technical problems independently, and maintain code quality.

Mobile & Web Developer (Startup, NDA Project)   Apr 2025 – Present
Remote

Currently building an MVP for a startup (under NDA) with a distributed team. Working voluntarily as part of a small distributed team. Responsible for building the mobile interface using React Native (Expo), Redux Toolkit, and TypeScript. Also assist with backend development in Node.js and PostgreSQL, including writing routes, middleware, and database interactions.

PROJECTS

E-Commerce System — full-stack e-commerce platform with user roles, payments, and inventory
Angular, Tailwind, Spring Boot, PostgreSQL, Stripe, Docker, GitHub Actions
Built a monorepo with OAuth2 authentication, Stripe integration, CI/CD pipelines, and inventory management panel.

Telegram Raffle Platform — web and bot-based raffle system with server-side dashboard
Next.js, Tailwind, Node.js, Prisma, Telegram API, JWT
Implemented JWT login, Telegram bot for participant management, automated winner selection via 'node-cron', and anti-bot protection using Turnstile.

Freight Services Landing Page — animated SSR landing page with Telegram and map integration
Next.js 14, Tailwind, TypeScript, Framer Motion, Google Maps API
Developed a responsive UI with modern animations, real-time Telegram alerts, and Google Maps coverage display.

Cybersecurity Course Page — SEO-friendly marketing page with CMS integration
Next.js 14 App Router, Tailwind, Framer Motion, CMS
Created a dynamic landing page with smooth animations, content management system, and optimized routing for SEO.

Bulk Messaging Telegram Bot — scheduled messaging bot with Supabase integration
Node.js, TypeScript, Telegraf, Supabase, PostgreSQL
Built a Telegram bot with user authentication, randomized message scheduling via 'node-cron', and persistent config storage.

Discord Forwarding Bot — event-driven bot for multi-channel content forwarding
Node.js, TypeScript, Discord.js
Developed a private client bot supporting multiple servers, scheduled content delivery, and custom rule-based forwarding.

ACHIEVEMENTS

- Delivered 6+ real-world projects, including web platforms, Telegram/Discord bots, and landing pages.
- Developed and deployed fullstack systems using React, Next.js, Node.js, and PostgreSQL.
- Created automated bots for Telegram and Discord with real-time features and scheduling logic.
- Contributed to a distributed team startup project building an MVP with React Native and Node.js.
- Built a monorepo-based e-commerce system with CI/CD pipelines and payment integration (Stripe).

LANGUAGES & SOFT SKILLS

Languages: Ukrainian (native), Polish (B2 – upper-intermediate), English (B2 – working proficiency)
Soft Skills: Communication, Teamwork, Problem-solving, Self-motivation, Fast learner
